MASTERCLASS ON BLOCKCHAIN IN FINANCIAL INCLUSION

Unit 1	Mastering blockchain for your business
Unit 2	Crypto Assets and Tokenization
Unit 3	Use of Blockchain in different Industries

Blockchain also has impact on financial inclusion. There are still far more than 1 billion people on earth without any access to financial products. For them saving value or transferring money is impossible or at least highly expensive. By making remittances fast and cheaper and giving control over identities blockchain can help to reach financial inclusion and improve peoples lives significantly. And those are just two areas where blockchain enhances financial inclusion.

- The Distributed Ledger Technology
- Blockchain Basics
- Blockchain and Security
- Smart Contracts
- Blockchain and Regulation
- Evaluation of DLT Technologies
- The crypto currency ecosystem
- Crypto currency mining
- Market places and wallets
- Investment in crypto assets
- Valuation framework
- Digital IPO's: Initial Coin Offerings
- Regulation of Crypto Currencies
- Outlook Crypto Currencies
- Disruptive nature of the blockchain & market transformation
- The Blockchain applied in Business: Framework for Use Cases
- Application domains, business models and when do you start with Blockchain
- Blockchain Technology Outlook

This course equips you with knowledge to advance the following SDGs:
